## The Geological Society Careers & Industry Days

The Geological Society's Careers Days are the essential meeting place for Geoscience and Earth Science students and industry leaders, institutions and employers.

The programme includes short career presentations covering different areas of geology and academia. An exhibition of industry and professional bodies gives university undergraduates and postgraduates the opportunity to find out about the latest career options, and talk to industry leaders about how they can gain entry into the sector. University representatives are also available to discuss MSc and PhD options.

### 2016 Registrations

Registration for the 2016 careers days is now open. The events are free to attend but there are limited places available.

[Register or find out more at the event pages:](#)

### SPONSORSHIP OPPORTUNITIES

Sponsorship and exhibition packages are available to help you showcase your organisation and meet prospective employees.

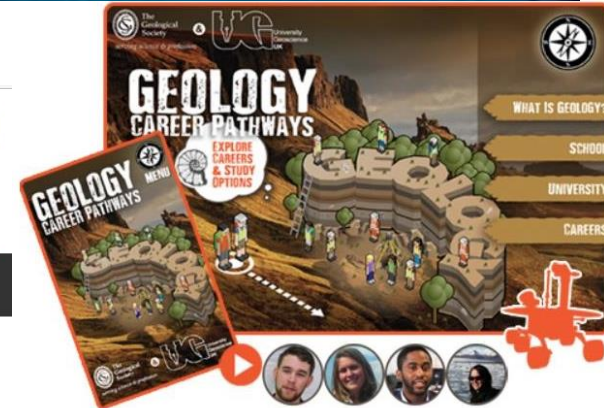

For more information please contact [Naomi Newbold](#).

## CAREERS IN GEOLOGY

If you are interested in the natural world around you, are good at investigating and problem solving, are numerate and articulate, have initiative and the ability to work in a team... then the exciting world of geology could be where your career lies.

Find out below about the main job sectors where geologists work and how to get there. Explore career profiles and videos, with advice on career development, CVs and placements, and information on salaries and equal opportunities.

- Today!
- Careers information on using your degree
- Read our online 'career profiles'
- Upload your CV onto our website
- Search for jobs on our new Job Listing ([Jobs.geolsoc.org.uk](http://Jobs.geolsoc.org.uk))
- Go on an endorsed CPD course
