

Fig. S1 Probability and weighted average of $^{206}\text{Pb}/^{238}\text{U}$ ages for representative sample D27, D28, D32, D56, D30, D36, and D03. Gray box in the probability diagram represents samples that plot outside of a Gaussian distribution, and they were excluded from the weighted mean age calculation. Gray bar in the weighted average plot represents the mean age.
