

Online Training: Practical Marine Engineering Geoscience Data Interpretation

Course Content

1. Day 1		
Introduction		9.30
a. Overview (Module 1)		10.30
ii. Practical introduction to down-loaded software and data		
iii. Q & A		
b. Break		11.30
c. Phase and Polarity (Module 2)		11.45
i. Presentation		
ii. Practical exercise		
iii. Q & A		
d. Velocity (Module 3)		12.45
i. Presentation		
ii. Practical exercise		
iii. Q & A		
Close		13.30
2. Day 2		
a. Interpretation (Module 4)		9.30
i. Presentation		
ii. Practical exercise		
iii. Q & A		
b. Seismic Attributes (Module 5)		10.30
i. Presentation		
ii. Practical exercise		
iii. Q & A		
c. Break		11.15
d. Seismic Inversion (Module 6)		11.30
i. Presentation		
ii. Practical exercise		
iii. Q & A		
e. Model Building and Summary (Module 7)		12.00
i. Presentation		
ii. Repeat multiple choice technical questionnaire		
iii. Q & A		
f. Closing remarks		13.15
Close		13.30
