

# Contents

*Preface* . . . . .v  
John P. Craddock, David H. Malone, Brady Z. Foreman, and Alexandros Konstantinou

## SEVIER BELT

1. *Retroarc Jurassic burial and exhumation of Barrovian metamorphic rocks dated by monazite petrochronology, Funeral Mountains, California* . . . . .1  
Suzanne Craddock Affinati, Thomas D. Hoisch, Michael L. Wells, and Samuel Wright

2. *Zircon petrochronology of Cretaceous Cordilleran interior granites of the Snake Range and Kern Mountains, Nevada, USA* . . . . .21  
Eric S. Gottlieb, Elizabeth L. Miller, John W. Valley, Christopher M. Fisher, Jeffrey D. Vervoort, and Kouki Kitajima

3. *Over- to under- to back-filled: Early evolution of the Sevier foreland basin in Wyoming, USA* . . . . .67  
Brady Z. Foreman, Michael D. D’Emic, David Malone, and John Craddock

4. *Timing and structural evolution of the Sevier thrust belt, western Wyoming* . . . . .99  
David H. Malone, John P. Craddock, and Alexandros Konstantinou

5. *An overview of strains in the Sevier thin-skinned thrust belt, Idaho and Wyoming, USA (latitude 42° N)* . . . . .133  
John P. Craddock and David H. Malone

## LARAMIDE OROGEN

6. *Calcite twinning strains associated with Laramide uplifts, Wyoming Province* . . . . .149  
John P. Craddock, David H. Malone, Alex Konstantinou, John Spruell, and Ryan Porter

7. *Evidence for large departures from lithostatic pressure during Late Cretaceous metamorphism in the northern Snake Range metamorphic core complex, Nevada* . . . . .193  
C. Hoiland, J. Hourigan, and E. Miller

8. *The lithospheric folding model applied to the Bighorn uplift during the Laramide orogeny* . . . . .221  
B. Tikoff, C. Siddoway, D. Sokoutis, and E. Willingshofer

9. *Provenance of early Paleogene strata in the Bighorn Basin (Wyoming, USA): Implications for Laramide tectonism and basin-scale stratigraphic patterns* . . . . .241  
J.L. Welch, B.Z. Foreman, D. Malone, and J. Craddock

<b>10. <i>Linking the Gulf of Mexico and Coast Mountains batholith during late Paleocene time: Insights from Hf isotopes in detrital zircons</i></b> . . . . .	265
Mark E. Pecha, Michael D. Blum, George E. Gehrels, Kurt E. Sundell, Karl E. Karlstrom, David A. Gonzales, David H. Malone, and J. Brian Mahoney	
<b>11. <i>Tectonic influence on axial-transverse sediment routing in the Denver Basin</i></b> . . . . .	293
Glenn R. Sharman, Daniel F. Stockli, Peter Flaig, Robert G. Raynolds, Marieke Dechesne, and Jacob A. Covault	
<b>LATE LARAMIDE OROGEN</b>	
<b>12. <i>Geology of Chief Joseph Pass, Wyoming: Crest of Rattlesnake Mountain anticline and escape path of the Eocene Heart Mountain slide</i></b> . . . . .	313
David Malone, John Craddock, Alexandra Wallenberg, Bertrand Gaschot, and John A. Luczaj	
<b>13. <i>Magmatism, migrating topography, and the transition from Sevier shortening to Basin and Range extension, western United States</i></b> . . . . .	335
Jens-Erik Lund Snee and Elizabeth L. Miller	
<b>14. <i>Downhill from Austin and Ely to Las Vegas: U-Pb detrital zircon suites from the Eocene–Oligocene Titus Canyon Formation and associated strata, Death Valley, California</i></b> . . . . .	359
Elizabeth L. Miller, Mark E. Raftrey, and Jens-Erik Lund Snee	
<b>15. <i>The “death” of the Sevier-Laramide orogen: Gravitational collapse of the crust or something else?</i></b> . . . . .	379
Alexandros Konstantinou
